

Beyond ChatGPT: Responsible and Ethical AI Use at Jewish Camp

Dr. Sarah Rubinson Levy

Part III - Ethical
Considerations and Policy

SARAH RUBINSON
consulting & contracting

This Session

- Challenges and opportunities
- Policy (checklist and template)
- Anthropomorphizing AI

But...Is using AI ethical?

What concerns and questions come to mind for you?

Have you experienced any real-world examples of challenges?

How does responsible AI usage align/conflict with Jewish values?

But...Is using AI ethical?

Challenges	Opportunities
Privacy and security concerns	Efficiency in operations
Equity considerations	Improved parent engagement
Promotion of bias and misinformation	Streamlined photo sharing and documentation
Potential for replacing humans	Inclusivity and accessibility
Over-reliance on AI for decisions	Data-driven insight for better program planning

How can we use AI in a way that benefits our stakeholders and aligns with our values?

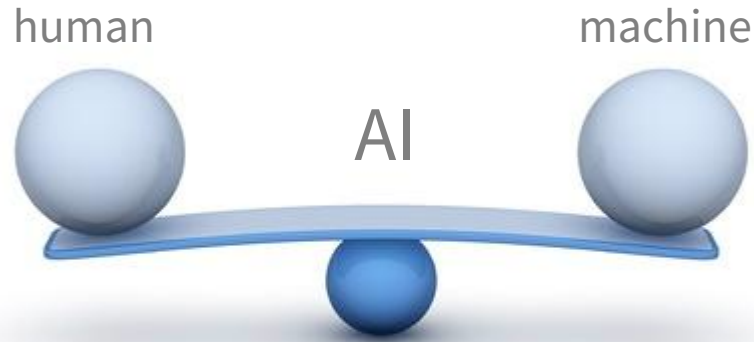

Create a policy

- What policies do you already have in place to guide you?
- What specifics would you want to make sure to include?

[Policy checklist and template](#)

Anthropomorphizing AI – Is it human?

Wrap Up

Next steps:

- Review the resources (including case study)
- Check out the ways to stay updated
- Submit your questions through the platform
